Address: **11 Church View, Dudley, Dudley**

Price: **Check with seller**

Dermalogica Skin care: Dermalogica was founded by a skin therapist, so we know how to create custom skincare solutions that work – not just today, but for life. We offer professional-grade skincare education, products, and services to skin therapists and customers alike. 0% of our ingredients, by mass, will be determined sustainable by certification and/or other supporting data. For ingredients with no existing certification practices, we will seek secondary documentation proving sustainable credentials. 51% or more of packaging plastic, by mass, will be derived from recycled plastic or plant-based materials. As a global brand, we're acutely aware of the impact that our actions can have on the environment, and so we are committed to an ambitious new Healthy Skin, Healthy Planet initiative.
