Price: **Check with seller**

English Bulldog puppy available: Hello! We have one more English Bulldog puppy available. Our wonderful puppies have enriched our lives. All are fit and in excellent health. They are dewormed, microchipped, and vaccinated. Upon delivery, they will receive an EU passport, collar and leash, a blanket that smells like their mother, and food for the first few days to exercise on. They will grow up in a family with children and will also get to know cats. They will be well socialized and accustomed to everything in their daily lives, from driving in the car and vacuuming, taking the train and bus, to getting to know the city center. Contact us if you are seriously interested.

Send us an email for an immediate response.
